SUMMARY

An IT-driven growth seeker equipped with a strong foundation in web development, database management, and network fundamentals. Dedicated to continuously acquiring relevant skillsets and embracing every challenge that comes with the profession. Thrives in collaborative environments and works seamlessly with others to achieve shared goals. Committed to making the most of every opportunity to gain industry experience, drive innovation, and pursue higher education in the field of Information Technology in the years ahead.

WORK EXPERIENCE

Meycuayan, Bulacan

JULY - AUGUST 2025

Device Asset Custodian – Operations Support

- Managed the issuance, retrieval, and secure storage of operational devices – including scanners, mobile phones, and laptops – to warehouse employees each shift, ensuring 100% device accountability and zero equipment loss.
- Monitored and maintained battery levels of all assigned devices by conducting regular charging cycles and battery percentage checks, ensuring all equipment remained fully operational throughout sortation shift hours.
- Administered device and employee ID scanning procedures to accurately track device assignment per personnel, strengthening asset control compliance and supporting audit-ready inventory records across the sortation facility.

PROJECTS

PLV-QLib (Patron Management System) | Capstone Project (2026)

- Designed and developed a multi-platform patron management system for the Pamantasan ng Lungsod ng Valenzuela (PLV) Library using React Native, React.js, and Supabase, delivering a seamless library patron experience with integrated database management and backend services.

Student Performance Tracking System | Academic Project (2025)

- Developed a web-based student performance tracking system for Senior High School students, allowing teachers to easily monitor, record, and evaluate student academic progress to support informed and timely instructional decisions.

ARTA-CSS Website (Survey Data Management System with Role-Based Analytics Dashboard) | Academic Project (2025)

- Built a web-based ARTA-compliant citizen satisfaction survey platform for the City Government of Valenzuela, implementing role-based access control (Super Admin, Admin, User) and an analytics dashboard to visualize and monitor customer satisfaction survey results in real time.

Amaro Resort Website (Content Management System) | Academic Project (2025)

- Designed and developed an informational website integrated with a content management system for Amaro Resort, enabling non-technical administrators to efficiently manage and update site content without developer intervention.

Library Management System | Academic Project (2025)

- Built a standalone Library Management System using Java and Swing, with features including book addition, editing, deletion, search, borrowing, and inventory tracking, allowing librarians to easily manage library records and improve the overall efficiency of daily library operations.

Cisco Network Infrastructure Simulation | Academic Project (2025)

- Assisted in designing and simulating a structured LAN and WLAN network topology modeled after the PLV CABA Building using Cisco Packet Tracer, setting up routers and switches across multiple floors to deliver a secure and fully connected environment for simulated computer laboratories.

EDUCATION

Pamantasan ng Lungsod ng Valenzuela

College

2023-2027

Bachelor of Science in Information Technology (BSIT)

- Relevance Course Work:** Application Development, Data Structures and Algorithms, Advanced Information Management, Web Systems and Technology, Software Development and Testing, Systems Integration and Architecture, Multimedia Systems, and more.
- Awards:** Academic Excellence Awards with Dean Lister (1st & 2nd Year)

Punturin

Senior High School

2021-2023

Science, Technology, Engineering and Mathematics (STEM)

- Relevance Course Work:** Empowerment Technologies, Media and Information Literacy, General Mathematics, Pre-Calculus, and Practical Research.
- Awards:** Academic Excellence Awards with High Honors

CERTIFICATES

UMAK 14 IT Skills Olympics 2025 | Representative - Web Design (November 2025)

University of Makati

ITlympics 2025 | Gold Medal - Web Design | April 2025

Pamantasan ng Lungsod ng Valenzuela

Network Addressing and Basic Troubleshooting | May 2025

Networking Academy

Networking Basics | May 2025

Networking Academy

Networking Devices and Initial Configuration | May 2025

Networking Academy

Network Support and Security | May 2025

Networking Academy

SKILLS & INTERESTS

Technical Skills: TypeScript, React.js, JavaScript, HTML, CSS, Tailwind CSS, Next.js, Python, Java, C#, C++, SQL, MySQL, MongoDB, PostgreSQL, Supabase, Node.js, Vercel, Git, Adobe Photoshop, Adobe Premiere Pro, Microsoft Office, Figma, Unity, and some networking knowledge of Cisco Packet Tracer, Network Security Fundamentals, Network Configuration and Troubleshooting, Network Topology Design and Simulation

Personal Skills: Detail-oriented, Organized, Respectful, Active Listener, Critical Problem-Solving Skills, Determined.

Interests: Technology, Sports, Music, Travel
