SUMMARY

An IT-driven growth seeker equipped with a strong foundation in web development, database management, and network fundamentals. Dedicated to continuously acquiring relevant skillsets and embracing every challenge that comes with the profession. Thrives in collaborative environments and works seamlessly with others to achieve shared goals. Committed to making the most of every opportunity to gain industry experience, drive innovation, and pursue higher education in the field of Information Technology in the years ahead.

EXPERIENCE

Device Asset Custodian – Operations Support Meycuayan, Bulacan

July 2025 - August 2025

- Managed the issuance, retrieval, and secure storage of scanners, mobile phones, and laptops while verifying employee IDs and tracking device assignments each shift, ensuring 100% device accountability and zero equipment loss while maintaining accurate, audit-ready inventory records.

IT Technical Support Intern - 11FTC Enterprises, Inc. Novaliches, Quezon City

June 2026 - October 2026

- Resolved employee support tickets by troubleshooting hardware, printers, and network issues while maintaining company devices and documenting solutions, enabling employees to resume work promptly and minimizing workplace disruptions.

PROJECTS

PLV-QLib (Patron Management System) | Capstone Project *2026*

- Designed and developed a multi-platform patron management system for the Pamantasan ng Lungsod ng Valenzuela (PLV) Library using React Native, React.js, and Supabase, delivering a seamless library patron experience with integrated database management and backend services.

Ticketing Management System | 11FTC Enterprises, Inc. (Internship Project) *2026*

- Developed a local Ticketing Management System using JavaScript, PostgreSQL, and Supabase that centralized 11FTC employee concerns and troubleshooting records, enabling IT staff to track daily tasks and resolve recurring issues faster.

Student Performance Tracking System | Academic Project *2025*

- Developed a web-based student performance tracking system for Senior High School students, allowing teachers to easily monitor, record, and evaluate student academic progress to support informed and timely instructional decisions.

Survey Management with Data Analysis | Academic Project *2025*

- Developed an ARTA-compliant citizen satisfaction survey platform for the City Government of Valenzuela with role-based access control, dynamic survey builder, and real-time analytics dashboard, enabling efficient monitoring of public service satisfaction across city departments

Amaro Resort Website (Content Management System) | Academic Project *2025*

- Designed and developed an informational website integrated with a content management system for Amaro Resort, enabling non-technical administrators to efficiently manage and update site content without developer intervention.

EDUCATION

Pamantasan ng Lungsod ng Valenzuela *2023-2027*

Bachelor of Science in Information Technology (BSIT)

- **Relevance Course Work:** Application Development, Data Structures and Algorithms, Advanced Information Management, Web Systems and Technology, Software Development and Testing, Systems Integration and Architecture, Multimedia Systems, and more.
- **Awards:** Dean's Lister (1st & 2nd Year)
